OLIVER COLLINS

olivercollins.github.io | oliver.collins@colorado.edu

Experience

Store No. 8

Software Engineer | *September 2019 - Present*
- *Part of the Walmart InHome team*
- *Currently working as an infrastructure engineer developing backed infrastructure to support Data Science team, route InHome deliveries, and manage logging pipelines through Splunk.*

SAP

Software Development Intern | *December 2018 - August 2019*
- *Developed both customer-facing and backend services by implementing new features, optimizing backend pipeline and infrastructure, and maintaining high code quality.*
- *Projects included migrating all java services to open JDK 11, speeding up build and deployment process through Jenkins, and ensuring service-wide security compliance using WhiteSource.*

FluentStream

DevOps Engineering Intern | *August 2018 - December 2018*
- *Containerized frontend development application, created automated build scripts, and monitored infrastructure through Nagios.*
- *Focused on optimizing current applications as well as assisting with overall development lifecycle.*

Intermountain Healthcare

Software Engineering Intern | *May 2018 - August 2018*
- *Migrated existing Java services to node.js and express, created unit and integration tests with Enzyme/Jest, and worked on general tasks in React.*
- *Towards the end of my internship, I worked on containerizing and deploying applications with Docker and Openshift.*

Skills

Python, Java, Javascript, Docker, Kubernetes, Jenkins, Git, Bash, AWS, Jira, RESTful Services

Activities

HackCU

Director of Finance | December *2015 - May 2019*
- *Worked on sponsorship, logistics, and operations to help organize Colorado's largest student hackathon with over 600+ attendees including 50+ hackers flying in from out-of-state.*

Lavo

Mobile Development Intern | April *2017 - September 2017*
- *Designed "laundry-delivery" mobile app from the ground up with two other mobile developers. Implemented Twilio programmable SMS, designed UI/UX for over 50% of frames, and assisted with GoogleMaps implementation.*

Education

University of Colorado, Boulder

B.A. in Computer Science | August 2015 - August 2019
